Electrical Safety and Emission Statement

Standards: This product meets the following standards.

U.S. Federal Communications Commission

DECLARATION OF CONFORMITY

Manufacture Name:	Allied Telesyn International
Manufacture Address:	960 Stewart Drive, Suite B Sunnyvale, CA 94086 USA
Manufacture Telephone:	408-730-0950
Declares that the product:	Ethernet switch
Model Number:	AT-FS705LE

This product complies with FCC Part 15B, Class B Limits:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RADIATED ENERGY

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes and modifications not expressly approved by the manufacturer or registrant of this equipment can void your authority to operate this equipment under Federal Communications Commission rules.

Industry Canada

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

RFI Emission EN55022 Class B  1

WARNING: In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.  2

Immunity EN50082-1  3

Electrical Safety UL 1950, EN60950, VCCI Class B  4

Important: Appendix A contains translated safety statements for installing this equipment. When you see the , go to Appendix A for the translated safety statement in your language.

Wichtig: Anhang A enthält übersetzte Sicherheitshinweise für die Installation dieses Geräts. Wenn Sie  sehen, schlagen Sie in Anhang A den übersetzten Sicherheitshinweis in Ihrer Sprache nach.

Vigtigt: Tillæg A indeholder oversatte sikkerhedsadvarsler, der vedrører installation af dette udstyr. Når De ser symbolet , skal De slå op i tillæg A og finde de oversatte sikkerhedsadvarsler i Deres eget sprog.

Belangrijk: Appendix A bevat vertaalde veiligheidsopmerkingen voor het installeren van deze apparatuur. Wanneer u de  ziet, raadpleeg Appendix A voor vertaalde veiligheidsinstructies in uw taal.

Important: L'annexe A contient les instructions de sécurité relatives à l'installation de cet équipement. Lorsque vous voyez le symbole , reportez-vous à l'annexe A pour consulter la traduction de ces instructions dans votre langue.

Tärkeää: Liite A sisältää tämän laitteen asentamiseen liittyvät käännetyt turvaohjeet. Kun näet -symbolin, katso käännettyä turvaohjetta liitteestä A.

Importante: l'Appendice A contiene avvisi di sicurezza tradotti per l'installazione di questa apparecchiatura. Il simbolo , indica di consultare l'Appendice A per l'avviso di sicurezza nella propria lingua.

Viktig: Tillegg A inneholder oversatt sikkerhetsinformasjon for installering av dette utstyret. Når du ser , åpner du til Tillegg A for å finne den oversatte sikkerhetsinformasjonen på ønsket språk.

Importante: O Anexo A contém advertências de segurança traduzidas para instalar este equipamento. Quando vir o símbolo , leia a advertência de segurança traduzida no seu idioma no Anexo A.

Importante: El Apéndice A contiene mensajes de seguridad traducidos para la instalación de este equipo. Cuando vea el símbolo , vaya al Apéndice A para ver el mensaje de seguridad traducido a su idioma.

Obs! Bilaga A innehåller översatta säkerhetsmeddelanden avseende installationen av denna utrustning. När du ser , skall du gå till Bilaga A för att läsa det översatta säkerhetsmeddelandet på ditt språk.

Welcome to Allied Telesyn

This guide contains instructions on how to install an Allied Telesyn AT-FS705LE Ethernet Switch.

Where to Find Web-based Guides

The Allied Telesyn web site at **www.alliedtelesyn.com** provides you with an easy way to access the most recent documentation and technical information for all of our products. All web-based documents relating to this product and other Allied Telesyn products can be downloaded from the web site in PDF format.

Document Conventions

This guide uses several conventions that you should become familiar with before you begin to install the product.

Note

A note provides additional information.

**Caution**

A caution indicates that performing or omitting a specific action may result in equipment damage or loss of data.

**Warning**

A warning indicates that performing or omitting a specific action may result in bodily injury.

Contacting Allied Telesyn

There are several ways to contact Allied Telesyn technical support: online, telephone, fax, and e-mail.

Online Support

You can request technical support online by filling out the Online Technical Support Form at **www.alliedtelesyn.com/forms/support.htm**.

Telephone or Fax Support

For technical support via fax, please fill out the “Technical Support Fax Order” on page 35 and send it to the appropriate location listed below.

Fax: international code +
425-489-9191

FTP Server

If you need a device driver for an Allied Telesyn device and you know the name of the driver, you can download the software by connecting directly to our FTP server at **ftp://gateway.centre.com**.

At login, enter 'anonymous'. Enter your e-mail address for the password as requested by the server at login.

For Sales or Corporate Information

For sales or corporate information contact Allied Telesyn at one of the following locations:

**Allied Telesyn
International, Corp.**

19800 North Creek Parkway,
Suite 200
Bothell, WA 98011
Tel: 1 (425) 487-8880
Fax: 1 (425) 489-9191

**Allied Telesyn
International, Corp.**

960 Stewart Drive, Suite B
Sunnyvale, CA 94086
Tel: 1 (800) 424-4284 (USA
and Canada)
Fax: 1 (408) 736-0100

Tell Us What You Think

If you have any comments or suggestions on how we might improve this or other Allied Telesyn documents, please fill out the “AT-FS705LE Installation Guide Feedback” on page 37 and return the form to us at the address or fax number provided. You can also provide feedback online by filling out the Send Us Feedback Form at **www.alliedtelesyn.com/forms/feedback.htm**.

AT-FS705LE Fast Ethernet Switch

Overview

The AT-FS705LE Ethernet Switch is a 10Base-T/100Base-TX unmanaged switch. The switch provides you with a simple, cost-effective solution for Ethernet switching between end nodes operating at either 10 or 100 Mbps.

Figure 1 AT-FS705LE Ethernet Switch

Features

The AT-FS705LE switch has the following features:

- ❑ Five auto-negotiating 10/100 Mbps twisted pair ports with RJ-45 connectors
- ❑ One Uplink port for connecting the AT-FS705LE switch to another switch or hub without a crossover cable
- ❑ IEEE 802.3 and IEEE 802.3u compliant
- ❑ External power adapter
- ❑ Desktop or wall-mount installation

Figure 2 and Figure 3 show the front and back panels of the switch.

Figure 2 Front Panel

Figure 3 Back Panel

Physical Description

The physical description for the switch includes:

- Ports 1 through 4
- Port 5 and the Uplink port
- LEDs
- Power supply

Ports 1 Through 4

Ports 1 through 4 can operate at either 10 Mbps or 100 speed and in either full- or half-duplex mode. The ports, featuring RJ-45 connectors, are configured as MDI-X, meaning that you can connect a workstation or server to one of the ports without using a crossover cable. The ports have a maximum operating distance of 100 meters (328 feet) using category 5 cable.

The ports are IEEE802.3u Auto-Negotiation compliant. This means that the ports can automatically configure their speed and duplex mode to match the capabilities of the end nodes connected to the ports.

Port 5 and the Uplink Port

Port 5 and the Uplink port allow you to connect an additional workstation to the switch or interconnect the switch with another switch or hub, without the use of a cross-over cable. If you need to connect an additional workstation to the switch, use Port 5, which is configured as MDI-X, just like ports 1 through 4. If you need to connect the switch to another Ethernet switch, use the Uplink port, which is configured as MDI.

Both Port 5 and the Uplink port offer 10 Mbps or 100 Mbps performance and auto-negotiation operation for both speed and duplex mode, just like ports 1 through 4. Both ports feature an RJ-45 connector and have a maximum operating distance of 100 meters (328 feet) using category 5 cable.

Note

You can use either port 5 or the Uplink port. You cannot use both simultaneously.

Front Panel LEDs

Refer to Table 1 for a description of the device LEDs.

Table 1 LED Functions

LEDs	Color	Description
Power	Green	On means there is power to the switch. Off means there is no power to the switch.
100M	Green	On means the port speed is 100 Mbps. Off means the port speed is 10 Mbps.
Link/Act	Green	On indicates a valid physical link on the port. Flashing indicates data is being transmitted or received on the port. Off means there is no link on the port.

Table 1 LED Functions (continued)

LEDs	Color	Description
Fdx/Hdx	Green	On indicates the port is operating in full-duplex mode. Off indicates the port is operating in half-duplex mode.

Power Supply

The AT-FS705LE uses an external power adapter that comes standard with the switch.

Network Topologies

Figure 4 illustrates a network that consists of one AT-FS705LE Ethernet Switch used to interconnect four workstations and a server. In this configuration, the Uplink port is not used.

Figure 4 Single AT-FS705LE Switch Topology

Figure 5 illustrates a network of two AT-FS705LE Ethernet Switches that have been interconnected using the Uplink ports on the two units. Using the Uplink ports eliminates the need for a cross-over cable to interconnect the switches.

Figure 5 Multiple AT-FS705LE Ethernet Switch Topology

Installing the Switch

This section contains the procedures for installing the switch.

Verifying the Package Contents

Make sure that the package includes the following items. If any of the items are damaged or missing, contact your Allied Telesyn representative immediately.

- One AT-FS705LE switch
- One power adapter
- Four self-adhesive rubber feet
- Warranty card
- This installation guide

Note

For wall-mount installation, you must supply the two screws and plastic anchors or other material necessary to physically mount the switch to the wall.

Selecting a Site

Make sure you observe the following site requirements:

- ❑ Make sure you are placing the switch in a dust-free and moisture-free environment.
- ❑ Do not block the ventilation openings on the unit. Allow at least 10 centimeters (4 inches) of space at the front and back of the unit for ventilation.
- ❑ Make sure that the switch's power is accessible and cables can be connected easily.
- ❑ Cabling should be away from sources of electrical noise such as radios, transmitters, broadband amplifiers, power lines, and fluorescent fixtures.
- ❑ Do not place objects on top of the switch.
- ❑ Use dedicated power circuits or power conditioners to supply power to the switch.

- ❑ Observe the following cabling specifications:

Ports	Connector Type	Type of Cable	Maximum Distance
1 through 5	RJ-45	Category 5	100 m (328 ft)
Uplink	RJ-45	Category 5	100 m (328 ft)

Reviewing Safety Guidelines

Please review the following safety guidelines before you begin to install the Ethernet switch.

Warning

Power cord is used as a disconnection device: To de-energize equipment, disconnect the power cord. *See* 5

Caution

Pluggable Equipment: The socket outlet should be installed near the equipment and should be easily accessible. *See* 6

**Caution**

Air vents: The air vents must not be blocked on the unit and must have free access to the room ambient air for cooling.

☞ 7

**Caution**

Operating Temperature: This product is designed for a maximum ambient temperature of 40°C. ☞ 8

**Caution**

All Countries: Install this product in accordance with local and National Electric Codes. ☞ 9

**Caution**

EUROPE - EU: Use TÜV licensed AC adapter of DC 7.5V, 1A. ☞ 10

**Caution**

USA/CANADA: Use a UL Listed/CSA Certified AC adapter of DC 7.5V, 1A.

☞ 11

Installing the Unit on a Desktop

To install the switch on the desktop, perform the following procedure. To mount the unit on a wall, perform the steps “Installing the Unit on a Wall” on page 14.

1. Attach the four self-adhesive rubber feet to the bottom of the switch, positioning them in the indentations.
2. Place the switch on a flat, level surface.
3. Plug the power adapter into the power receptacle, then plug the DC power cord into the DC connector on the front panel of the switch.

Warning

The power cord is used as a disconnection device. To de-energize equipment, disconnect the power cord.

5

4. Make sure the Power LED on the front panel lights green.

5. Attach the data cables to the switch ports. Do not use a cross-over cable to connect workstations or servers to ports 1 through 5. Do not use a cross-over cable to connect another switch or hub to the Uplink port.

Note

You can use either port 5 or the Uplink port on an AT-FS705LE switch, but you cannot use both simultaneously.

6. Go to the procedure “Verifying and Troubleshooting the Installation” on page 16.

Installing the Unit on a Wall

For wall-mount installation, you can position the switch vertically or horizontally on the wall using the keyhole cutouts in the bottom of the switch chassis.

1. If previously attached, remove the rubber feet and all cables and the DC power cord from the switch.
2. Select a wall location for the switch.

Note

For wall-mount installation, you must supply the two screws and plastic anchors or other material necessary to physically mount the switch to the wall.

3. Install two plastic anchors and two pan-head screws into the wall, separated by 5 centimeters (approximately 2 inches).
4. Position the switch onto the wall screws.
5. Plug the power adapter into the power receptacle, then plug the DC power cord into the DC connector on the front panel of the switch.

Warning

The power cord is used as a disconnection device. To de-energize equipment, disconnect the power cord.

5

6. Connect the data cables to the ports on the switch.
7. Attach the data cables to the switch ports. Do not use a cross-over cable to connect workstations or servers to ports 1 through 5.

Do not use a cross-over cable to connect another AT-FS705LE switch to the Uplink port.

Note

You can use either port 5 or the Uplink port, but you cannot use both simultaneously.

8. Go to the procedure “Verifying and Troubleshooting the Installation” on page 16.

Verifying and Troubleshooting the Installation

The following procedure should be performed after you have initially installed the unit to check to be sure that the switch is operating properly. You can also perform this procedure to troubleshoot the unit in the event you experience any problems with the device.

1. Check the Power LED. The LED should be ON. If the Power LED is OFF, check the following:
 - ❑ Check to be sure that the power adapter is securely connected to the power source and to the DC connector on the front of the AT-FS705LE switch.

- Check to be sure that the power outlet has power by connecting another device to it.
 - Try replacing the power adapter with another power adapter.
2. Check the Link/Act LED for each port. The LED should be lit steady or flashing. If a Link/Act LED is OFF, check the following:
- Check to be sure that the node connected to the port on the switch is powered ON. If the node is OFF, power the unit ON.
 - Check to be sure that the distance between the switch and the connected network device is no greater than 100 meters (328 feet).
 - Check to be sure that you are using Category 5 cable.
 - Check to be sure that the cable has not been cut or damaged.
3. If the Lnk/Act LED for a port is on but there is a communication problem to the end node connected to the port, such as the loss of data, check the following:
- Check to be sure that the distance between the switch and the connected network device is no greater than 100 meters (328 feet).

- ❑ Check to be sure that you are using Category 5 cable.

Warranty Registration

When you have finished installing the unit, you should register your product by completing the enclosed warranty card and sending it in, or by visiting our web site at

www.alliedtelesyn.com/forms/warranty.htm and completing the on-line registration.

Technical Specifications

Standards Compatibility:	IEEE 802.3, IEEE802.3u
Interfaces:	RJ-45 connectors
Physical Dimensions:	W x D x H 100 x 78.5 x 26 mm (3.93 x 3.09 x 1.02 in.)
Power Supply:	Input: 7.5V @ 1A
Power Consumption:	4W
Environment Specifications:	
Operating Temperature	0° to 40° C
Storage Temperature	-25° to 70° C
Operating Humidity	10% to 90% Relative Humidity
Storage Humidity	10% to 95% Relative Humidity

- 7  **OPGELET:** De ventilatiegaten mogen niet worden gesperd en moeten de omgevingslucht ongehinderd toelaten voor afkoeling.
- 8  **BEDRIJFSTEMPERATUUR:** De omgevingstemperatuur voor dit produkt mag niet meer bedragen dan 40 graden Celsius.
- 9  **ALLE LANDEN:** het toestel installeren overeenkomstig de lokale en nationale elektrische voorschriften.
- 10  Gebruik een door TÜV gekeurde wisselstroomadapter van 7,5 Volt gelijkstroom, 1 ampères.

Normes: ce produit est conforme aux normes de suivantes.

- 1 Emission d'interférences radioélectriques EN55022 Classe B
- 2  **MISE EN GARDE :** dans un environnement domestique, ce produit peut provoquer des interférences radioélectriques. Auquel cas, l'utilisateur devra prendre les mesures adéquates.
- 3 Immunité EN50082 - 1 1997
- 4 Sécurité électrique UL 1950, EN60950, VCCI Class B
- 5  **DANGER DE Foudre**
DANGER: NE PAS MANIER le matériel ou les CÂBLES lors d'activité orageuse.
- 6  **EQUIPEMENT POUR BRANCHEMENT ELECTRIQUE,** la prise de sortie doit être placée près de l'équipement et facilement accessible".
- 7  **ATTENTION:** Ne pas bloquer les fentes d'aération, ceci empêcherait l'air ambiant de circuler librement pour le refroidissement.
- 8  **TEMPÉRATURE DE FONCTIONNEMENT:** Ce matériel est capable de tolérer une température ambiante maximum de ou 40 degrés Celsius.
- 9  **POUR TOUS PAYS:** Installer le matériel conformément aux normes électriques nationales et locales.
- 10  Utiliser un adaptateur secteur conforme TÜV de 7,5 V, 1 A en courant continu.

Standardit: Tämä tuote on seuraavien standardien mukainen.

- 1 Radioaaltojen häirintä EN55022 Luokka B
- 2  VAROITUS: Kotiolosuhteissa tämä laite voi aiheuttaa radioaaltojen häirintää, missä tapauksessa laitteen käyttäjän on mahdollisesti ryhdyttävä tarpeellisiin toimenpiteisiin.
- 3 Kestävyys EN50082-1 1997
- 4 Sähköturvallisuus UL 1950, EN60950, VCCI Class B

TURVALLISUUS

- 5  **HUOMAUTUS:** VIRTAJOHTOA KÄYTETÄÄN VIRRANKATKAISULAITTEENA. VIRTA KATKAISTAAN irrottamalla virtajohto.
- 6  PISTORASIAAN KYTKETTÄVÄ LAITE; pistorasia on asennettava laitteen lähelle ja siihen on oltava esteetön pääsy."
- 7  **HUOMAUTUS:** Ilmavaihtoreikiä ei pidä tukkia ja niillä täytyy olla vapaa yhteys ympäröivään huoneilmaan, jotta ilmanvaihto tapahtuisi.
- 8  **KÄYTTÖLÄMPÖTILA:** Tämä tuote on suunniteltu ympäröivän ilman maksimilämpötilalle 40°C.
- 9  **KAIKKI MAAT:** Asenna tuote paikallisten ja kansallisten sähköturvallisuusmääräysten mukaisesti.
- 10  Käytä TÜV-lisenssillä valmistettua verkkosovitinta, jonka tasajännitteen nimellisarvot ovat DC 7,5 V, 1 A (ampeeria).

Standard: Questo prodotto è conforme ai seguenti standard.

- 1 Emissione RFI (interferenza di radiofrequenza) EN55022 Classe B
- 2  **AVVERTENZA:** in ambiente domestico questo prodotto potrebbe causare radio interferenza. In questo caso potrebbe richiedersi all'utente di prendere gli adeguati provvedimenti.
- 3 Immunità EN50082-1 1997
- 4 Sicurezza elettrica UL 1950, EN60950, VCCI Class B

NORME DI SICUREZZA

- 5  **ATTENZIONE:** IL CAVO DI ALIMENTAZIONE È USATO COME DISPOSITIVO DI DISATTIVAZIONE. PER TOGLIERE LA CORRENTE AL DISPOSITIVO staccare il cavo di alimentazione.
- 6  **APPARECCHIATURA COLLEGABILE**, la presa va installata vicino all'apparecchio per risultare facilmente accessibile".
- 7  **ATTENZIONE:** le prese d'aria non vanno ostruite e devono consentire il libero ricircolo dell'aria ambiente per il raffreddamento.
- 8  **TEMPERATURA DI FUNZIONAMENTO:** Questo prodotto è concepito per una temperatura ambientale massima di 40 gradi centigradi.
- 9  **TUTTI I PAESI:** installare il prodotto in conformità delle vigenti normative elettriche nazionali.
- 10  Utilizzare l'adattatore per c.a. da 7,5 V c.c. e 1 A conforme alla normativa TÜV.

Sikkerhetsnormer: Dette produktet tilfredsstiller følgende sikkerhetsnormer.

- 1 RFI stråling EN55022 Klasse B
- 2  **ADVARSEL:** Hvis dette produktet benyttes til privat bruk, kan produktet forårsake radioforstyrrelse. Hvis dette skjer, må brukeren ta de nødvendige forholdsregler.
- 3 Immunitet EN50082-1 1997
- 4 Elektrisk sikkerhet UL 1950, EN60950, VCCI Class B

SIKKERHET

- 5  **FORSIKTIG: STRØMLEDNINGEN BRUKES TIL Å FRAKOBLE UTSTYRET. FOR Å DEAKTIVISERE UTSTYRET, må strømforsyningen kobles fra.**
- 6  **UTSTYR FOR STIKKONTAKT.** Stikkontakten skal monteres i nærheten av utstyret og skal være lett tilgjengelig."
- 7  **FORSIKTIG:** Lufteventilene må ikke blokkeres, og må ha fri tilgang til luft med romtemperatur for avkjøling.
- 8  **DRIFTSTEMPERATUR:** Dette produktet er konstruert for bruk i maksimum romtemperatur på 40 grader celsius.
- 9  **ALLE LAND:** Produktet må installeres i samsvar med de lokale og nasjonale elektriske koder.
- 10  **Benytt TÜV-godkjent AC-adapter på 7,5V DC, 1A (milliampere).**

Padrões: Este produto atende aos seguintes padrões.

- 1 Emissão de interferência de radiofrequência EN55022 Classe B
- 2  **AVISO:** Num ambiente doméstico este produto pode causar interferência na radiorecepção e, neste caso, pode ser necessário que o utente tome as medidas adequadas.
- 3 Imunidade EN50082-1 1997
- 4 Segurança Eléctrica UL 1950, EN60950, VCCI Class B

SEGURANÇA

- 5  **CUIDADO:** O CABO DE ALIMENTAÇÃO É UTILIZADO COMO UM DISPOSITIVO DE DESCONEXÃO. PARA DESELETRIFICAR O EQUIPAMENTO, desconecte o cabo de ALIMENTAÇÃO.
- 6  **EQUIPAMENTO DE LIGAÇÃO,** a tomada eléctrica deve estar instalada perto do equipamento e ser de fácil acesso."
- 7  **CUIDADO:** As aberturas de ventilação não devem ser bloqueadas e devem ter acesso livre ao ar ambiente para arrefecimento adequado do aparelho.
- 8  **TEMPERATURA DE FUNCIONAMENTO:** Este produto foi projetado para uma temperatura ambiente máxima de 40 graus centígrados.
- 9  **TODOS OS PAÍSES:** Instale o produto de acordo com as normas nacionais e locais para instalações eléctricas.
- 10  Use um adaptador de corrente alternada com saída DC de 7,5V e 1A em conformidade com as especificações da TÜV.

Estándares: Este producto cumple con los siguientes estándares.

- 1 Emisión RFI EN55022 Clase B
- 2  **ADVERTENCIA:** en un entorno doméstico, este producto puede causar radiointerferencias, en cuyo caso, puede requerirse del usuario que tome las medidas que sean convenientes al respecto.
- 3 Inmunidad EN50082-1 1997
- 4 Seguridad eléctrica UL 1950, EN60950, VCCI Class B

SEGURIDAD

- 5  **ATENCIÓN:** EL CABLE DE ALIMENTACION SE USA COMO UN DISPOSITIVO DE DESCONEXION. PARA DESACTIVAR EL EQUIPO, desconecte el cable de alimentación.
- 6  EQUIPO CONECTABLE, el tomacorriente se debe instalar cerca del equipo, en un lugar con acceso fácil".
- 7  **ATENCIÓN:** Las aberturas para ventilación no deberán bloquearse y deberán tener acceso libre al aire ambiental de la sala para su enfriamiento.
- 8  **TEMPERATURA REQUERIDA PARA LA OPERACIÓN:** Este producto está diseñado para una temperatura ambiental máxima de 40 grados C.
- 9  **PARA TODOS LOS PAÍSES:** Monte el producto de acuerdo con los Códigos Eléctricos locales y nacionales.
- 10  Utilizar un adaptador de corriente alterna autorizado TÜV de 7,5 voltios de corriente continua y 1 amperios.

Standarder: Denna produkt uppfyller följande standarder.

- 1 Radiostörning EN55022 Klass B
- 2  **VARNING:** Denna produkt kan ge upphov till radiostörningar i hemmet, vilket kan tvinga användaren till att vidtaga erforderliga åtgärder.
- 3 Immunitet EN50082-1 1997
- 4  Elsäkerhet UL 1950, EN60950, VCCI Class B

SÄKERHET

- 5  **VARNING: NÄTKABELN ANVÄNDS SOM STRÖMBRYTARE FÖR ATT KOPPLA FRÅN STRÖMMEN,** dra ur nätkabeln.
- 6  **UTRUSTNING MED PLUGG.** Uttaget skall installeras i utrustningens närhet och vara lättåtkomligt".
- 7  **VARNING:** Luftventilerna får ej blockeras och måste ha fri tillgång till omgivande rumsluft för avvalning.
- 8  **DRIFTSTEMPERATUR:** Denna produkt är konstruerad för rumstemperatur ej överstigande 40 grader Celsius.
- 9  **ALLA LÄNDER:** Installera produkten i enlighet med lokala och statliga bestämmelser för elektrisk utrustning.
- 10  Använd en växelströmsanslutningsenhet licensierad av TÜV.Likström 7,5V, 1A.
